

# Easy Bib Pattern

HOME & HERITAGE DESIGNS

1. *Print out this pattern piece.*
2. *Begin with a napkin or dish cloth, old tablecloths, placemats, or your choice of fabric and hem, if necessary, to approximately 12" wide by 17 1/2" long. Fold the fabric in half to match the fold of the pattern piece, lining up the top edge. Cut the neckline only.*
3. *Cut a matching piece of bias binding to 42" long (we like 1/4" wide or extra wide double fold, but other bindings will do). Pin the center of the bias binding to the center of the neckline. Press under the raw ends to enclose. Stitch close to the edge (folding the binding lengthwise as you go) from one end to the other, making sure that the neckline of the bib is firmly enclosed in the binding.*

*Cut 1 on fold*
